Whether the Municipality Will Own Whole Street Railway System-Sixty Per Cent Affirmative Vote is Necessary,

Detroit, Mich., Nov. 2 .- This city, if the municipal ownership plan being Mother! Your child isn't naturally voted on to-day carries, will be the first in the United States to own and operate its entire railway system. For many years Detroit has resounded with arguments for and against the plan. Chicago and Cleveland adopted settlement ordinances which eliminated, for the time being at least, municipal ownership. In San Francisco and Seattle only a com-paratively small proportion of the mile-age is owned and operated by the peo-

To carry, the plan must receive a six-ty per cent affirmative vote. For years all efforts of the local traction company to obtain new fran-chise grants have failed. As a result, while the population has increased with great rapidity, street car service has not kept pace, and the referendum therefore is said to have aroused the personal interest of most of the voters. The lines have been operating for the most part on a day-to-day agreement, with tickets selling for a quarter at all times except during the two rush periods, when eight He died within a few minutes. Criticism of the plan includes opinion that it will make a political foot-ball out of the lines. To this answer is made that the commission will have complete power, that the mayor is pledged to retain in office the commis-sioners named, and that the commissioners have agreed to stay in office. Labor organizations have objected on two grounds, namely that the plan will invalidate the arbitration agreement between the company and the union, and
